

Erasmus + Turkey

Day 1 8.10

Today we flew from Warsaw to Antalya, a city in Turkey. We don't like to fly planes all of us, but together we were happier. We arrived late, had a delicious dinner and went to bed.

Day 2 9.10

We spent one night in a hotel and then took another flight to another city- Adana to get from it to Tarsus. We were all looking forward to getting to know our hosts.

Day 3 10.10

Today we were in the high school of our hosts for the first time, we saw how it all works, we met people from exchange from other countries. After all these integrations, together with our teachers and the whole team, we went for a walk around the area and visited the Museum in Tarsus.

Day 4 11.10

That day we all went on a trip to Mersin, saw caves - one under the name of hell, and the other, under the name of heaven. We also went to the beach, swam in the sea and it was really cool.

Day 5 12.10

Today we invented our mythical characters and presented our presentations. We had a great time working in groups with students from Romania, Italy, Greece and Turkey. Our characters were really amazing. Later, we went to another school where one of the teachers told us about a 3D printer. Then with our hosts we went to buy souvenirs.

Day 6 13.10

Today we got up very early because we had our second sightseeing tour today. We visited historical monuments. Our hosts did not go with us. Not all of them were from Polish, there were also students from Romania, Italy and Greece.

Day 7 14.10

Soon we will return to Warsaw. We passed this trip very quickly. We and saw interesting places and met interesting people with whom we will definitely keep in touch. We learned more about Turkish customs and about the legends of other countries and their characters. It was a very interesting experience.

We recommend Erasmus+ to everyone.
